

SUGGESTION AND RECOMMENDATION TO THE CHAIRMAN

13 August 1958

SUGGESTION NO. 58-598: dated 10 June 1958

STATINTL

[REDACTED], GS-14, Security Asst.
Building Planning Staff, OL, DD/S

A. Summary of Suggestion

Suggester proposes that the shuttle bus shelter located at R&S Building be turned part way around so that prevailing northwest storm winds will not blow into the shelter.

B. Summary of Evaluation

STATINTL

On 28 July 1958, [REDACTED] Chief, Admin Staff, OL stated:

"This is a reasonable suggestion and action will be taken to relocate the shelter.

"Observation by members of this office also indicate that many shuttle bus passengers do not utilize this shelter possibly because they do not recognize or realize what it is intended for. Construction of a sign reading "Shuttle Bus Passenger Shelter" will be arranged by this office and attached to the shelter.

"This suggestion has intangible value and will affect employees of R&S Building, students attending Training courses in the R&S Auditorium and Agency employees in general who are waiting for a shuttle bus to return to their offices after eating at the R&S Cafeteria."

C. Recommendation of the Executive Secretary

1. Letter of Appreciation

D. Decision of Chairman

STATINTL

[REDACTED] # above
Award - as recommended by
Executive Secretary above.
